2. THE CONTESTED AUCTION

2.1 1♣ - intervention

Over D/1♦ we basically play SYS ON. But unbalanced hands switch strength, i.e. we zoom out distribution directly w/ 5-6zz. Pass = 3-4zz (semipositive) while 1♦ over a D and D of a 1♦ overcall shows 0-2zz. RD of a D depends on the meaning of the D, if it shows ♣ the RD is a T/O of ♣, else it is a G/T+ penalty RD, i.e. showing same hand type as doubler.

Over 1♥ we play SYS ON w/ D as a 1♥ response.

Over 1♠ D is either a G/T T/O D or FG without convenient bid. New suit is nat FG and 1NT is nat FG.

Over higher interventions D is FG indicating a balanced hand while suit/NT are nat FG.

2.2 1♦ - intervention

Over D 2m is nat NF (8-12).

Over 1♥ D is the equivalent of a nat 1♠ response while 1♠ is a T/O of ♥ w/ max 3♠. 2m is nat NF (8-12).

Over 1♠ D is T/O and 2♣-2♥ is nat NF (8-12).

Generally 2 of a suit is nat NF while 3 of a suit is nat FG.

2.3 1M - intervention

Generally 2 of a suit is nat NF while 3 of a suit is nat FG.

Cue is splinter/splimit.

After 1♥ - (D), 1NT-2♦ by RE is TRF. After 1♠ - (D), 1NT-2♥ is TRF.

2.4 2♥ BROWN STICKER OPENING - intervention

2♥ D	RD	Penalty
	3♥	P/C
	Else	As uncontested

AFTER AN OVERCALL

Jumps are as uncontested. For the rest we play:

NT overcall	After a NT overcall lowest ♣-bid is a relay asking for OP's major and extra strength (♦-bid in response shows max hand with unknown long M). D = PD and other suit bids than the ♣-bid described above are nat NF with a long suit.
Suit overcall	D = T/O (often interest to play in OP's long M). 2NT is as uncontested and new suits are nat and NF with a long suit.
